£650,000

Services Installed

Mechanical, Electrical and Specialist Building Services

Set in 56 acres of woodland and formal gardens this impressive Queen Anne property was completely remodelled to provide a spectacular integrated family home, ancillary extension, garden and grounds.

EV Bullen were commissioned to design, procure and install a full range of building services to ultimately achieve the clients vision for this truly unique property.

Services included future proofing M&E installations, fully integrated Specialist Systems, Specialist Bespoke Lighting and a wide range of support services.

Close coordination of multi services ensured accurate and on time programme delivery. Our Heritage craftsman's skills were employed extensively to deliver high quality finishes to a very enjoyable and satisfying project.
