## Heritage

### New Testament Church of God, Lee, London – Mechanical & Electrical Building Services

#### Client

New Testament Church of God

#### Main Contractor

E V Bullen

#### Value

£118,000

#### Overview:

The New Testament Church of God, based in Lee High Road, London is a place of regular worship, offering support groups, event hosting and organised activities for all members of the local community.

#### Scope of Works:

The work involved removal of the existing boiler plant and replacement with two new 197kw boilers, pumps associated pipe work and installation of a new BMS management system with the facility to be accessed and controlled via a mobile application. Plant Room lighting and power were also replaced along with a new flue liner for condensing boiler plant. The team worked closely to ensure the project was carried out safely and without disruption to members of the public, church staff and events. A truly rewarding project to be involved with and we thank the Senior Pastor for entrusting us to deliver.

#### Services Installed:

- 197 kw boilers x 2
- Primary and secondary pumps
- Air dirt separator
- Magnetic cleaning filter
- New flue system
- New building management system
- Lighting & power to boiler room
